Megan,

October 30, 22

We are here to visit your beautiful place here in God's most heavenly spot.

We see you everywhere as the butterflies buzz by us.

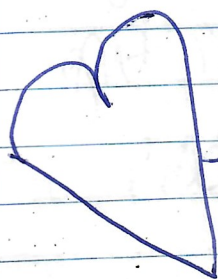

You are safe in heaven with the angels but you are missed here.

Watch over us sweet girl.

Your brother Jordan is here with us today.

Hi Baby Girl,

Your Dad & I are here visiting your memorial today. Life is rough without you. The holidays are not making in any easier. Kallie is attempting deserts this Thanksgiving... she hopes she makes you proud. We will have a place saved for you at the table.

Your Dad & I were sitting ~~beside~~ next to our firepit just a little bit ago & a beautiful butterfly flew right in front of us. We both turned to each other & smiled. We will

be going back home tomorrow & go
spend time with you at your butterfly
festival. (that's our Sunday routine).
But we will be back out here this
Wednesday through Monday & will
come visit your memorial site often.
great BIG ((HUGS))) my forever
Sunshine. Until we see you
again.

love you so very
much,
Mom & Dad.

We're here at your
memorial today ^{January 29}
2023 one year after we lost
you. But we didn't lose
you right. You are still
with us. I feel your presence
you still shine and I
hope you feel our unending
love. Megan you made
our world a better place.
I hope your message has
reached others so their
loved ones are safe
when enjoying our desert
and the offroad sports.
The wind is blowing again
today just like the

What a beautiful memorial to an obviously much loved person. We were not lucky enough to have known Megan, but we are experiencing peace at her site, and learning how much she was loved, by many people.

Megan -

I'm here at your cross today. It has been far too long since I've left you a message in your mailbox. My sister lost her battle with multiple myeloma. I hope she is with you & Papa "dancing in the sky". Loss effected & loss we could never have imagined. My heart hurts so much. Your Mom & Dad are in unimaginable pain. Your Mom is working hard to make a difference. We can't bring you back, but you are forever with us. Here's hoping & praying that lives will be spared because of your senseless death. Here's hoping & praying that the truth of this will reach people no matter how many road blocks there are. Loving you now & always Megi.

Hi Sunshine,

We are here to celebrate
grammy's birthday this weekend.
Everyone misses you.

I am trying to stay strong
for you Punkin but it is hard.
Some days are much harder
than others.

What I would give to be with
you. You are my everything.

Take care, watch over us,
especially Jordan. He is

smuggling Meg & could use
your guidance. I worry about

him. He has not been the same since you were taken from us.

We are extremely proud of him though. He got a great job at Berg Electric. I am very happy for him & I know you are a very proud sister. We just need to watch over him & make sure he stays strong.

I love you & cannot wait to be with you again.

My Sweet beautiful niece. ~~It's been 2 years since~~
~~you were taken from us~~ It's been 2 years since
you were taken from us and a day does
not go by that you are not in our thoughts
& prayers. It does not get easier as time
goes by, ~~and~~ I think we just keep moving
forward ~~out~~ as necessary. It gives me comfort
believing that you are safe & happy just
watching over your family until it's time
that we all join you. Say ~~hello~~ hellos to
Papa for me.

I love you more than words can
say. I hope you feel that with
every whisper & hug I send your way.

Love, Auntie Randy

Love,

I hope megan and all of her family
find peace. Much Love

I DONT know megans family
or friends, I did not have
the honor of meeting megan
but stumbling upon this
beautiful memorial gave me
a senso of peace I've not felt
in a long, long time.

The love expressed in these
pages was overwhelmingly
beautiful.

I can honor megans legacy
in only one way, by sharing
compassion for her family and
loved ones and trying to keep
every rider around me safe.
peace and love be with megan
and her loved ones. Thank you
for sharing such beautiful
memories and letters w/ us all.

Dear Megan!

I know we didn't talk
much and I was always
kind of dry to you but
I am so ~~denying~~ missing you
and all of you
"HI BRODY!"s and I wonder
if I was on that
ride if that ~~maybe~~ it
could have been ~~for~~
instead of you
and maybe there would
have been the ~~family~~
there since you were
not connected to the
family but anyway
I miss you

Hi Megamoo,

my 2nd Thanksgiving without you. This one was a tough one. I thought last year was rough but 2023 broke me. I spent Thanksgiving day at your pedestal. I love the alone time with you.

Man did we miss your homemade pies this year. Your hands down made the absolute best pies.

We had dinner by Papa's tree again this year. The weather was perfect. You were with us on the table because Dean

brought your butterfly urn.
Uncle Joel said a prayer before
dinner $\frac{1}{2}$, there were lots of tears.

I love you so much $\frac{1}{2}$
will continue to look at photos
 $\frac{1}{2}$ watch videos so I can
see you $\frac{1}{2}$ hear your voice.
this is all I have for now.
I only have memories until
it is my turn to join you.
I can't wait for that day. I
have to have faith $\frac{1}{2}$ believe I will
be with you again. I can't imagine
it any other way.  mom.

Hi Sunshine,

I made the mistake "again" & waited to write to you after spending about 2+ hours out here in the heat cleaning & now my hands are shaking. It isn't making it easy to write to you... but I am sure you don't care what my writing looks like. I know for certain that I will NEVER be able to come close to your printing. I look through all your college notes & I am in awe of how of how perfect it is.

So I came by last night with Grammy, Auntie Wendy & Uncle Joel & my heart broke. There was so much build-up of sand that you couldn't even see your name or hardly anything else for that matter. Your Uncle Joel broke out his air compressor & blew all the dirt off your name. There was too much dirt everywhere else so I told him it was ok to stop & I am back here today.

I am here by myself because I wanted to be alone but also because.

I feel incredibly guilty for letting it
get like this. We made a promise to you
that your Dad & I would come out here
frequently (heat, rain, wind) &
clean & well, I am here by myself
as I have been every other time for
months. I guess it is just too hard for
your Dad to be here. But I will never
stop because I made you that promise.
(my writing is getting even worse :))

I love & miss you so very much.
Life is completely different since you
have been gone. I have always heard
that the loss of a child can tear a
family apart but I don't want to
believe it would happen to us.

We are already approaching your 3rd
Annual Memorial Ride for Off Road
Safety Awareness this October 2021.
Of course we are struggling with
the pandemic again. They told us not
to delay & get our application in early
which we did. But now it's crickets.
I constantly have to ask for an update.
I don't understand why it is taking
so long. I never once for the last 2

rides and we have any issues. I would think it should be easier since we completed everything we have been asked to do. Fingers crossed it will be approved soon.

As you know they informed us last year that your cross will have to come down. It has been here since Jan 30th, 2022. Multiple Rangers drove right by us when it was being put up, nothing was said about it until almost 2 yrs later. They said it should have never been put up. I got it. However, why did they not tell us the day we were out here putting it up. Why did they not tell us when we did your 1st ride. Why did it take this long to tell us. Because they waited this long it is going to kill me if they do end up having us take it down. This is where I laid in the dirt with you for hours until you were taken away. This is a place for Jordan to come & mourn his sister that he watched get killed. This memorial is a constant reminder to everyone. This memorial is bringing awareness. All I ask is that when people see this memorial they take a second to think about what could happen to anyone

out here enjoying the sport of
off roading.

This did NOT have to happen. This
was NOT just an accident. This was
NOT the fault of BOTH drivers.

For those that keep saying the desert
is a ride at your own risk. I get that.
However, wait until something like this
happens to your child, your family member
or friend... you will not forgive
if you had the same circumstances. This
was witnessed by multiple people. The driver
admits to continuing to drive at high
speeds even though he couldn't see at all
in front of him. There is so much detail
from the witnesses about the speeds &
driving conditions for both Megan & the driver
of the SXS. You would NOT agree that
it was the fault of both drivers.
It's heartbreaking.

Slow or Stop if you can't see.
Don't change directions without making
sure you are not going to cut off
or hit someone head on.
I am disgusted with the system.

well punkin, my hand is so sore
& shaky that I can't even read my
own writing so I am going to stop for
now.

You are amazing baby girl. I am
grateful for all the memories. I can not
wait until I am with you again. I just
hope it's not too far in the future because
it is really hard without you.

Sending so much love
to you,
Mom.

P.S. I know a lot of people say
"you are in a better place". I agree...
you were doing amazing things with
your life & tragically that was taken
from you. I do believe you are happy
at peace, dancing in the sky, with Papa,
with Grammy Mary & all the others that
are in heaven but you should still be
here.
